Hottest Day and Night of Year

Sour dispositions are not back of the painful expression seen the faces of pedestrians today and yesterday. It was simply the huttest day of the year working on their physiognomies. Coupled with a temperature of 99, the recent showers operated to fairly roast Paduenhans, inside or out-of-doors. The moisture-laden atmosphere was turned into steam, and this steam turned the city into a big radiator,

Residence districts noticed the heat really for the first time last night and the night before. Scarcely any lercezes were stirring last night. As it didates, but the committee this year was the lowest temperature last night was 77. Captain William Borneman, does not expect to do more than bare-United States weather observer for Paducah, is conducting interesting by get through without a deficit, experiments to see the reintive temperatures in the business district and sections. He finds that where people sleep is is from 7 to 10 degrees cooler than where they work.

His experiments explain the cause of the number of sun strokes in the tenement districts of a city. In the residence sections, where there are crees and room for the air to circulate, the heat of the day is moderated; but down-town, where streets and walls refuln the heat with little possibility of breezes, the temperature remains high. In Paducah, there are three different degrees of temperature each night, each being materfally highr than the other. From First street on Broadway to Sixth street the heat last night was 77; from Sixth street out through the solld residence district the temperature was around 68; from Fountain avenue to Lackey, Gus G. NATURE'S

There is scarcely any one, no matter how vigorous and healthy, who does not need a tonic sometimes. Little physical irregularities upset the system, the appetite fails, digestion is poor, the body feels tired and worn out, and other unpleasant symptoms give warning that the system is disordered and needs assistance to ward off, perhaps, some serious sickness or ailment. S. S. S. is recognized everywhere as the best of all tonies, nature's Grosseup was here until after he had port on the feasibility of the governmedicine, made entirely of healing, cleansing, invigorating roots and herbs, a systemic remedy without an equal. S. S. has the additional value of being the greatest of all blood purifiers. It re-establishes the healthy circulation of the blood, rids the body of that tired, worn-out feeling, improves the appetite and digestion, and brings about a return of health to those whose systems have been weakened or depleted. S. S. S. acts more promptly and pleasantly than any other medicine, and those who are run down in health should commence its use at once. It will thoroughly purily the blood and tone up the system. S. S. S. is admirably suited for a systemic remedy because it is free from minerals; it may be used without harmful results by persons of any age, and no unpleasant effects ever follow.

SHANTYBOATER LETS FLY AT STEAMER ISLAND QUEEN.

Two People Slightly Wounded By Flying Shot, Rut Candidate

Cincinnati, July 30.-The steamer Island Queen was fired on during its trip up the Ohio river last night with Judge Wm. H. Taft and the notification committee and guests aboard, and Mrs. C. H. Russell, of this city, standing on the hurricane deck, directly under the seat occupled by the presidentlal candidate, was struck in the face and breast by a number of small shot. She was not seriously injured. Very few of those on the steamer knew of the occurrence, and Judge Taft was not

A shotgun was used, being fired by a man from a shanty-boat moored to the Ohio side of the river. The identity of the abooter is unknown. The Island Queen had steamed slowly around the bend at Dayton, Ky., and was near the middle of the river, when persons leaning on the larboard rail saw a man emerge from the cabin of a shanty-boat moored on Ohio bank and fire a shotgun. He was in shirt sleeves and wore a

Mrs. Russell gave a cream and de-clared she had been shot. She was hurried into the cabin, where it was found she was not seriously injured. One of the shots had penetrated the skin over her left eye and another had struck her on the chin.

The distance from the shore was so great that the charge of shot had almost spent its force when it reached the boat. A number of the peliets plerced her dress. A young man atanding by Mrs. Russell's side was also hit by one of the shot, but he was not hurt. The officers of the boat stated that they would make nn investigation in order to learn the identity of the miscreant who fired

C. B. Russell said Wednesday: " was standing at my wife's side, but none of the shots struck me. It was incky we were not closer to the Ohio shore, I saw the man plainly, and at first thought him merely an enthusiastic celebrator. I do not like to believe that the shot was fired with malicious intent, and it may have een only chance that the spent struck just below where Judge Taft was sitting."
